

BIS² Announces Availability of Spatial Xchange

The BIS² Spatial Xchange service provides geospatial data enabling data warehouses to become a complete repository for valuable visualization analysis

SAN DIEGO, CA – April 24, 2009 – BIS², the provider of innovative data visualization software that enables valuable business decisions to be made from massive data collections, announced today the availability of Spatial Xchange, a set of spatial data for the Enterprise Data Warehouse designed by relational / geographic information specialists.

Utilizing geospatial data, the BIS² Spatial Xchange service enables data warehouses to become a more complete repository for valuable visualization analysis. By cross-referencing customer information, delivery routes and infrastructure schematics with BIS² industry-leading data sets, organizations gain a geographic perspective of their business that was previously unseen. Spatial Xchange data, combined with the power of BIS² advanced visualization software, provides a total business solution for an organization's mapping and geographic BI analytical needs.

“At BIS², we are dedicated to developing advanced visualization industry solutions that not only seamlessly integrate into enterprise environments, but also enable a geographic and visual perspective of your business previously not possible,” said BIS² CTO Andrew Cardno. “Combined with the power of BIS²'s Super Graphics software, Spatial Xchange provides a total business solution for a customer's mapping and geographic BI analytical needs.”

About BIS²

BIS² is an innovative leader in advanced data visualization with industry solutions that reveal the trends and patterns in volumes of operational data, so organizations can understand what actions are required now and tomorrow. BIS²'s industry solutions enable organizations to view and analyze data sets that provide the insights needed to gain a competitive advantage. With BIS²'s patent pending Super Graphics, organizations can adapt to changes by rapidly generating crucial insights from both within and outside the enterprise. BIS² has global offices in North America, Europe and Asia-Pacific. For more information, please call 1-877-592-2472 or visit www.bis2.net.
